### Rain Falls Again In Canyon Monday Raising Record

Moisture So Far Received During 1937 Is Ahead Of Total During Recent Years

14.66 IS THE TOTAL

Still a Few Spots In the County Which Are Under County Average

Rain amounting to .30 of an inch fell in Canyon Monday evening. Rain so far during September amounts to 2.41 inches. The total for the year so far is 14.66 inches as compared to a total of 12.38 inches at the end of September in 1936. The moisture so far this year is the largest Canyon has had in a comparative period of time in several years.

The rain Monday was spotted, like the other rains have been this fall. Spots northwest and southeast of Canyon were reported last week to have received only light rains as compared with Canyon. F. C. Gruner reported Tuesday that at his place northeast of Canyon there had been less than an inch during the past two weeks. During this period most parts of the county have been soaked with from 3 to 6 inches. The rainfall in Canyon last week amounted to 2.06 inches, and the rain of Monday increased this to a total of 2.36 inches which has fallen in the period of ten days.

Farmers who have been able to get into their fields are planting wheat. In places where the heaviest rains have fallen, it is still too wet to plant. Indications are that the wheat acreage in Randall county will equal that of last year.

The recent rains has been fine on the row crop and the pasture lands.

### \$485 In Billfold Lost Thursday on Street of Canyon

H. Sexton of Amarillo reported the loss of \$485 in a billfold on the public square Thursday about noon. Mr. and Mrs. Sexton were passing through and stopped to do some shopping. Mr. Sexton recalls to have taken the billfold from his pocket to return change which Mrs. Sexton handed him as they crossed the street to their car.

The couple drove away from Canyon and about five miles north Mr. Sexton discovered his loss. They returned to town, went to all the places they had visited, and carefully examined the pavement where the car stood and where they had crossed the street. Sheriff Bob Barnett and his deputies assisted, but could find no trace of the billfold and money. A \$100 bill was one of the missing denominations in the billfold.

Mr. Sexton offers a reward of \$100 for return of the billfold and money. His name is stamped on the billfold.

### Mrs. W. L. Branson To Conduct Kindergarten School

Mrs. W. L. Branson will have charge of the Nursery and Kindergarten school this fall, which was started last year by Mrs. Marion Bishir.

The school will be held at the Bishir home 1715 Sixth Avenue beginning Monday, Sept. 20, from 9 to 11:30, where the children will be given story telling, music, art, supervised and constructive play.

Mrs. Branson holds a degree from W. T. in Primary Education and is well qualified to work with the youngsters as she has had experience in work of this kind.

### Freshmen Are Enrolled Yesterday; Upperclassmen To Be Enrolled Balance of Week

The 28th year of West Texas State opened yesterday with the enrollment of freshmen. Upperclasses will start enrolling today. Enrollment may continue during the coming week. Many of the advanced students will not come until the end of the week.

From all indications the freshman class will show a good increase in number over the freshmen of last year. The halls were lined yesterday with students trying to complete their enrollment. No figures were available yesterday in regard to the total freshmen, since freshmen may continue enrolling throughout the week.

Class work will start Friday thru-out the institution. The first assembly program will be held Saturday at 11:00 o'clock at the administration building auditorium. President J. A. Hill will make general announcements regarding the work for the year and will introduce members of the faculty.

All of the dormitories of the institution are filled, with waiting lists for some of them. A large number of new people have moved to Canyon during the past two weeks in order to take advantage of the schools. Good houses are reported to be at a premium and very scarce. Real estate men report an unusual demand for houses in Canyon during the past month.

From all indications W. T. will show a good percent increase over the attendance of last year.

### Trees Are Wanted for Transplanting in Dreamland Cemetery

Citizens having good trees which may be transplanted at Dreamland Cemetery are asked to telephone Mrs. John Fry or Mrs. J. W. Klein-schmidt. The trees will be called for during October.

Chinese elms and other good trees for this section are wished by the association.

#### HAS OPERATION

Mrs. Carl Laughery underwent a gall bladder operation at Saint Anthony's Sanitarium in Amarillo on Tuesday morning. Mrs. Laughery has been seriously ill for some time, but her condition is reported as satisfactory.

### Wheat Seed Loan Time Extended to Last of September

Notice was received yesterday of the extension of time for making wheat seed loans until September 30th. It was formerly announced that yesterday would be the official closing day for loans.

Mrs. James Cole will be in the loan office only on Wednesday and Saturday afternoons of each week during the balance of September. It is believed that positively no more loans will be made after September 30th.

### Tennessee Club Will Meet During the Tri-State Fair Amairllo

All native born Tennesseans are asked to meet at the grandstand on the Tri-State Fair grounds on Thursday, Sept. 23rd at 10 o'clock for a regional meeting. An organization was recently formed with N. S. Griggs, president, and Mason King, secretary.

This is the first time that such a meeting has ever been held.

Dr. and Mrs. S. L. Ingham are moving back from Clarendon today where they have spent the summer at the Millard Word home. Dr. and Mrs. R. P. Jarrett, who have lived in the Ingham home since July, are moving to 1100 Seventh Avenue.

### Action Regard Palo Duro Park Will Come Soon

State Parks Board Is Sold on Continuing the Improvements To Be Made at Park

K. N. Clapp, member of the Texas State Parks Board, was here Tuesday afternoon to meet with a group of citizens who are interested in the future of the Palo Duro State Park.

T. E. Johnson and Floyd Studer came from Amarillo for the meeting. Local citizens present were: Judge Burney Slack, Commissioner G. B. Heath, Mayor C. R. Burrow, S. B. Orton, Clarence Thompson, W. A. Warren and Clyde Warwick.

Mr. Clapp asked Mr. Warwick to outline the work that had been accomplished at the Palo Duro during the time that he and Mr. Johnson were connected with the park on the advisory committee.

Mr. Clapp highly praised the Palo Duro and its usefulness to the people of this section. He pledged that he would stand by the Palo Duro and do everything possible to insure its future, and secure for it all of the improvements possible.

However, the debt against the 15,500 acres, with interest added to the present time, amounts to something like \$475,000. The income is not sufficient to take care of the contract made by the Texas State Parks Board. The board has been figuring for months what the future will be and how this debt can ever be liquidated.

All citizens present were asked to express their opinion as to the solution of the problem. Mr. Clapp stated that his mission was to advise the local people of the situation and to ask their co-operation in settling the problem.

The State Parks Board has not yet determined upon what action shall be taken, but some definite action will be taken in the near future.

The State Highway Department recently agreed to take over the road in the Palo Duro, but so far has not assumed active control.

#### RETURNS FROM TRIP

Misses Jennie C. Ritchie and Hattie M. Anderson returned last Thursday from a vacation trip to Hawaii, Australia and New Zealand.

Mr. and Mrs. Delma Hair and son of Eastland visited his brother, Carl Hair from Friday through Sunday.

### Weeds Growing Since Fine Rains

While the recent fine rains have been wonderful for the farmers of the county, the moisture has started the weeds to growing fast.

J. C. Pipkin, pioneer resident of Canyon, suggests that every citizen get busy cutting the weeds on his premises. Owing to the late season, frost will likely come before another weed crop will come up.

Mr. Pipkin has set the example for his neighborhood by cutting all the weeds in the alley and on his place.

### Cars Colliding on Highway Causes the Death of Hitchhiker

A hitchhiker was killed Monday afternoon in the north part of the county when he was hit by a car overturning as the result of a collision on the highway. Mrs. Ivan Pitt, daughter of Commissioner and Mrs. W. E. Bennett, was the driver of one car which figured in the accident. She was driving onto the highway when the front fender of her car was hit by a rapidly moving car driven by Robert Harding, a junior in the University of Arizona.

Harding's car was overturned, hitting Charles Holseton, 69-year old hitchhiker. The deceased was identified by a lodge card, a telegram and other papers. Relatives were notified.

Deputy Sheriff W. L. Lyons called Sheriff Bob Barnett, 69-year old hitchhiker. The deceased was identified by a lodge card, a telegram and other papers. Relatives were notified.

Mrs. Pitt escaped with a twisted ankle.

### Help Canyon Band Win \$100 at Tri-State Fair Wed.

Next Wednesday is Canyon day at the Amarillo Tri-State Fair and the Fair organization is offering a prize of \$100 to the band that gets the most registered votes from the visitors at the Fair.

Help the high school band of Canyon to win this prize by going to the registration building on the Fair grounds and register your party. Last year the local band won second place, but this year the Band wants the \$100 prize.

Register for the Canyon Band that will be much in evidence on Canyon day at the Fair, and ask others to register for Canyon High.

### Bufs Will Play First Game Friday

### Sunday School To Be Stressed All Churches In City

Students Will Receive a Welcome; Members of Churches Are Invited To Attend Sunday

Sunday School Day will be observed in all of the churches of Canyon next Sunday.

Special programs will be put on in all of the churches for the benefit of not only the visitors, but as well for the old members.

A special invitation is issued for all public school, training school and college students to attend the service of the church to which they are accustomed to attend.

All of the pastors of Canyon are co-operating in this service and they hope to make next Sunday the biggest Sunday School day in years.

Adults as well as children are urged to attend the services next Sunday.

### Odorization Gas Will Be Made on Tuesday Next Week

Notice has been mailed to all customers of the West Texas Gas Company that odorization of gas will start next Tuesday. The last session of the legislature passed a law making this compulsory of all gas companies.

Customers of the gas company are notified that when they detect an unusual odor on their premises to call the local office for inspection.

This law was passed as a result of the New London catastrophe last year when a school building was blown up and nearly 400 children killed as the result of gas accumulations in the building.

Mr. and Mrs. Ed Weeks and Mr. and Mrs. Jack Thompson spent last week vacationing in Colorado at Denver and Colorado Springs.

### Panhandle Aggies Will Be First Opponents of Bufs in Starting Season's Play

The 1937 Buffalo football season opens Friday night at 8:00 o'clock at Buffalo Stadium. Coaches Al Baggett, Tony Dougal, and Bob Cox have been putting their charges through a stiff training period during the past week. Thirty-three Bufs will be fighting for first recognition of their ability in this opening fray.

While the Bufs expect to annex the opening game Friday, the coaches and men do not overlook the fact that the Panhandle Aggies always put out a scrappy team which never quits fighting. Coach Carl Wooten is recognized as a worthy foe by all athletic men, and always inspires his men to battle to the end.

Nine of the nineteen lettermen reporting are members of last season's club that chalked up seven victories and two scoreless ties against one set-back. Pacing this array of promising prospects is the hapless but rugged Captain Si Marchbanks, 175 pound center from Childress. Though he was only able to participate in two of last year's ten-game schedule due to an injured leg, Marchbanks was placed at the helm as a tribute to his ceaseless loyalty to the club. Joy enveloped the entire squad when team physicians reported that his leg had completely mended.

Other probable starters for Friday's fray are Oscar Hinger, two year letterman of Ende, N. M., and Monroe Horton, Wichita Falls, at the guard slots. Letterman William Harp, 235 pounder from Sherman, and lanky Luther Stephenson of Anton, a sophomore, loom as the best bets at tackle. Chick Neilson, sub wing of Spearman, and veteran Craig Walling, shifted from a tackle berth, are certain to guard.

### Money Earned By Randall County's Beef Club Boys

Randall County 4-H Beef Calf club members took advantage of the opportunity offered them by "Farm Ideas" magazine. The magazine company gave them 50% commission on each subscription they sold. The boys sold enough subscriptions to net them \$14.00.

The money received through the subscription and dues paid by the club members makes a total of approximately \$20.00 that the club now has in its treasury.

Equipment to be used by all the club members when they show their calves at various shows will be bought with the money.

#### BAND PARENTS ELECT OFFICERS MONDAY EVE.

At the Monday night meeting of the Band Parents Association new officers were elected to serve during the coming year as follows:

Mrs. Ray Campbell, president. Mrs. Hud Prichard, vice-president. Mrs. Guy Harp and Mrs. N. T. Dickerson, co-secretary-treasurer.

Two numbers were given by the Brass Quartet followed by a trombone solo by Grant Sharman. Two piano numbers were given by band master Marshall Riemenschneider.

### Club Boys To Show At Tri-State Fair in Amarillo Next Week

Club boys from Randall county will enter the agricultural show in Amarillo next week at the Tri-State Fair. Maize and kaffir will be entered in competition.

A large number of individual exhibitors will show their products from Randall county. Since the county exhibits are not being shown during the fair, each individual who has good products are urged to enter competition.

### All Land Owners Required Enter Bids For Dams

Form For Applications Is Given Land Owners By Carl Hinton of Water Authority Board

#### 100 FOR RANDALL

All Applications Entered Will Be Forwarded Next Week

Land owners of Randall county are urged to make application at once if they wish dams on their land. The first applications will be filed next Thursday, Sept. 23, with WPA in Amarillo. Those land owners who have their applications in by that time stand the first chance of getting the dams.

A meeting of the County Planning Board was held Saturday with S. H. Condon, Clyde Warwick, Louis Wiek, Ross Craig and James E. Park, attending. W. A. Warren, vice president of the Panhandle Water Conservation Authority, and County Agent W. H. Upchurch joined in making plans for getting all of the applications in at once.

Mr. Warren states that it looks possible for 100 small dams to be built in the county during the three year period over which the present program extends. Work will be started as quickly as possible on the 10 major projects, and then the smaller ones will be put underway. Actual work on the small projects may not be started for several weeks, but it is very necessary that applications be filed at once.

Several small dams have been built in Randall county under the range program, and most of them have washed out because of the lack of adequate engineering. The new program calls for adequate engineering, and it is believed that all dams built will stand the test of floods.

Mr. Upchurch has offered the assistance of his office in making the applications and assisting the farmers in every way possible.

No definite word was available as to the form of application until (Continued on last page)

### Mesquite Lodge Is Added to Co-Ops For W. T. Girls

Mesquite Lodge is the latest co-operative home for young women attending W. T. The Robbins house, 2300 Third Ave., has been leased for the year and will be conducted along the same line as Randall Hall.

This house is just across the street from Cactus Lodge, which was recently bought as a co-operative home for girls. This home has been completely remodeled and refurnished.

Owing to the large number of girls who could not be cared for in Randall Hall and Cactus Lodge, the Robbins home was leased.

Mrs. Geraldine Green, Dean of Women, states that the two lodges will be carefully supervised, as are the other dormitories of W. T. Only a few places had not been taken in the new home in spite of the fact that it was not decided until Saturday to lease the additional home for girls.

### William S. Strain Curator of El Paso Centennial Museum

William S. Strain has been elected curator for the El Paso Centennial Museum at the College of Mines. He took his place on the faculty of the college this week.

Mr. Strain is the son of H. S. Strain of Canyon. He received his B. S. degree from W. T. and his M. A. degree from the University of Oklahoma. He will teach geology in the College of Mines in addition to his work in the museum. He has been assistant curator at the Oklahoma institution since taking his degree.

Mr. Strain announces that he will seek contributions of materials from all over West Texas to be placed in this museum.

Congressman Marvin Jones told 1,000 men in Amarillo last Wednesday how he wanted the conservation money handled in the dust bowl. He did not mince words, or evade issues. Petty bickering must be out. County fights must not be engaged in. Jealousies between counties and communities must not be staged. The dust bowl problem is a five-state problem, and must be handled as an area problem rather than a county or community problem. The appropriation secured for this work was a personal triumph for Marvin Jones. Congress and the President trusted him, and trusted the Panhandle Water Authority with a big job of spending the money wisely. The people are getting this money to stop the ravages of dust and erosion. If the money is wisely spent, more money may be secured, if necessary. Should the money be unfortunately wasted, then those who wasted it must bear the blame. Congressman Jones would be personally disappointed, and his faith in the people of this area to do the wise and fair thing would be badly shaken. The directors of the Conservation group have a big job ahead of them. Let every citizen and every land owner strive to see that every dollar spent is wisely spent, and that dollars are spent in the places where they are needed, rather than being wasted on unwise projects.

Mrs. Theodore Roosevelt, Jr., was in China when the Japs started the undeclared war. She got out safely, but was not escorted by a big battleship or something equally as spectacular. She is raving mad at the administration for not telling the Japs where to head in and stop their foolishness. She does not approve of the United States trying to remain neutral. Such folks as Mrs. Roosevelt would risk the lives of thousands of young men in this nation, and see the United States squander millions of dollars just for the sake of telling another nation where to head in. Since Franklin D. Roosevelt started his meteoric flight in politics the Theodore Roosevelt branch of the family has been greatly displeased. They have done everything to cast a reflection upon the President and his family. But a silly attempt to throw this nation into war just for the sake of saying spiteful things about the President is going pretty strong—even for a foolish woman engaged in a family row. The less attention

The race for Attorney General next year promises to give the voters as many thrills as the one for Governor. Lieutenant Governor Walter Woodul has been in the race for two years. He has made speeches all over the state and has the best organization of any man in the race. Now comes Speaker Bob Calvert of the House of Representatives as an entry. Woodul as presiding officer of the Senate and Calvert as presiding officer of the House have both been very popular with the members of the legislature, and both are strong with the Allied administration. Clyde Smith, who put up a good race against McCraw, has entered the race. Gerald Mann, former Secretary of State, has announced for the office. Lewis M. Goodrich of Shamrock has been in the race for some time. Several other well known campaigners are threatening to get into the race if they can find popular backing. It looks like a big political year ahead for the people of Texas.

Governor Allred has called the tax session of the legislature after considerable hesitation. A large number of members of the legislature have firmly said they do not see the necessity of more taxes at this time. They profess to see the lack of funds in the state treasury as a good thing for the taxpayers, and a check upon the legislative anxiety to spend money. The Governor repeats that he would veto a sales tax. State employees and those who do business with the state wonder why they must continue to pay a 2% sales tax when they cash their warrants, and the balance of the people of the state contribute nothing. A merry battle will be waged when the legislature meets on the 27th of this month.

Land owners who wish dams on their property must act at once. No one else has the authority to act for them. It is hoped there will be money available to build at least 100 dams in Randall county, making small lakes that will be of use to the farmers. Now is the time to act. Next week may be too late for the application. The News urges that every land owner who has a place for a dam to make the application at once. The land owner will not give up the title to his land; will not be charged with any of the cost of construction; will likely be allowed to do the work himself, and be paid for his labor. Everything points in favor of the land owner in this deal. Make your applications at once.

Panhandle newspapers have been doing great things this summer in the way of special editions. During the past week three more fine editions were published. The Shamrock Texan, edited by Albert Cooper president of the Panhandle Press Association, came out with a 60-page edition. The Borger Herald printed a 58-page edition. The Canadian Record published a 20-page edition dedicated to the 50th anniversary of the founding of Hemphill county. No section of Texas produces better newspapers than the Panhandle. Whenever special editions are published, they are real worthwhile editions and something of which the people may be justly proud.

Anti-administration senators who proposed Vice-President John Garner as the Democratic nominee for President in 1940 are having their hands called good and strong by Texans who are strong for a third term for President Roosevelt, if he wants it. Garner would be 71 years of age in 1940. It would be entirely unlikely that he could stand up under the terrific strain imposed upon a president. It is charged that the Garner boom is nothing more or less than a smoke screen of the anti-New Dealers raised with the hope of diverting attention from the President. So that's that.

State Superintendent L. A. Woods reports that one-third of the schol-

astics of Texas do not attend school. There are 1,560,000 children of scholastic age enumerated in Texas. Only a million are actually attending school. Most of those not attending are negroes, Mexicans and the "poor white trash" of East Texas. West Texas kids attend school, but East and South Texas draws money from the state for children who are enrolled, yet do not attend school. Another great injustice upon West Texas. The only way to solve the problem would be to base the school apportionment upon school attendance rather than upon head count.

The rains of last week were certainly a wonderful thing for the Panhandle. Wheat may now be planted in every section although the rains were spotted and many sections did not receive as much as they really need. This country having been a "next year country" for so long, people are taking a new lease on life and looking forward to an abundance which has been missing since the drought clutched this area six years ago. All's well that ends well—so here's hoping that the drought really is at an end.

The army vs. navy again. The navy prepare to rush more battleships to China to protect American interests. Army officers protested to the President. When authority was sought for executive orders to send the ships, the President disapproved the plan as being unnecessary and dangerous to the welfare of the nation. This is in keeping with his policy of doing everything possible to keep this nation out of war. The army and navy should have closer co-operation, or be under one central control.

Pirate submarines are sinking English, French and Russian ships. Italy is charged with sending out the subs, and refuses to become a part of the police force that is sent out to destroy the marauders. English gunboats are ordered to sink the subs, rather than capture them. It would be more comfortable not to know definitely that Mussolini is declaring open warfare on British shipping.

38,000 people were killed in automobile accidents last year, according to recent figures. A high percentage of these were the victims of John Barleycorn. No other one cause is so deadly as the driver of a car who is drinking liquor. The cause of prohibition and temperance is still the greatest problem in this nation.

## HE SAVED MONEY—BUT.

Clarendon News: Some years ago the Pulitzer Prize for the best cartoon of the year went to John T. McCutcheon. The cartoon showed a sad and shabby man seated upon a park bench. A squirrel playing in front of him asked: "Why didn't you save your money?" The derelict replied, "I did!"

Thousands of men have saved their money—to lose it at age when their fortunes could not be rebuilt. For saving is one thing, and security is another. Unhappily, they don't always go together.

Every man should place a large part of his savings in some plan, such as life insurance, which guaranteed the maximum of security. Only spare dollars should be used for speculation—for ventures which, though they may return a great profit, may also result in 100 per cent loss of the principal employed. Before taking risks, it is essential to build a sound financial bulwark for the future.

## "The Rest of the Record"

BY JAMES V. ALLRED  
Governor of Texas

This past week I met with certain members of the Senate committee which has been studying State expenditures. According to some newspaper articles we don't need any new tax money; also that the Comptroller and Treasurer have said our deficit was only ten million dollars. The State Auditor has fixed it at fifteen million dollars as of September 1st of this year; at approximately twenty million dollars September 1, 1938; and approximately twenty-four million dollars September 1, 1939, if no new taxes were levied.

When I met with members of the Senate committee we had the State Auditor and a representative of the State Comptroller with us. It developed that the Comptroller's figures and the Treasurer's figures were based on an actual deficit at the time but that they were not taking into consideration appropriations and expenditures that have already been made and not yet charged on the books just because the warrants had not been issued for them.

For instance, they hadn't taken into consideration an appropriation of \$821,000.00 for an insane asylum in West Texas. The Board of Control has already located this hospital at Big Springs, where the people voted a bond issue to furnish the land and water supply; and the Board is preparing to let the contract for the building now. Certainly no one could argue that items of this kind are not chargeable against the State for which money should not be raised. At the end of the conference the representative of the Comptroller's Department agreed with the State Auditor's figures, so there is no actual difference.

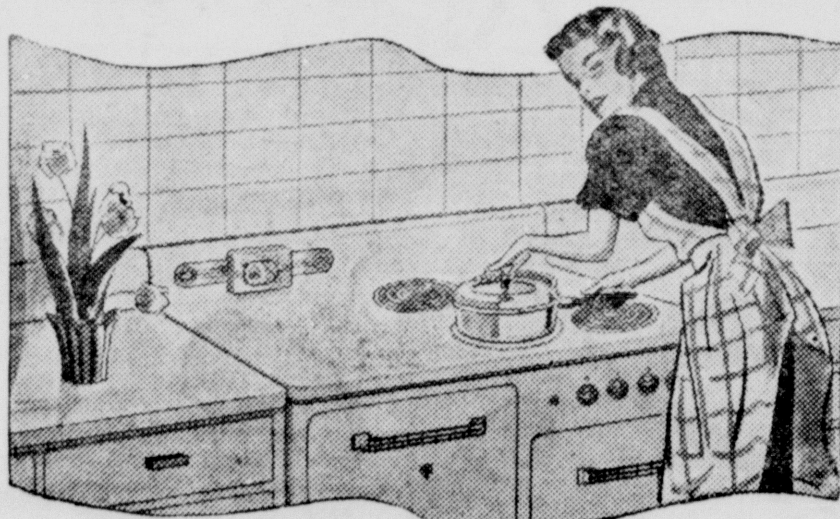

Some members of the Senate committee have been quoted as saying that we should cut appropriations down and consolidate departments. I pointed out to them that at the beginning of the Regular Session I recommended department consolidations and stated that I could not recommend increases in appropriations, other than a little over a million dollars for the insane asylums. These recommendations of mine were ignored. Efforts to consolidate certain departments of government were killed in committee, and appropriations were substantially increased without revenues being provided.

The time to cut appropriations was during the Regular Session. The appropriations have now gone into effect. Our schools and colleges, for instance, have acted on these appropriations and entered into contracts with teachers which are binding on the State. The Board of Control has advertised for bids on buildings authorized in these appropriations. Now, it would be manifestly unfair, in fact I think impossible, for the Legislature to make any substantial savings at this late hour. The trouble is if I should submit any of these matters it would prevent passage of revenue measures, which we must have regardless, during the thirty days to which the Legislature is limited.

eral Board, of which the Governor is Chairman and Judge C. V. Terrell of the Railroad Commission and Land Commissioner McDonald are members, passed a resolution which will result in \$500.00 per day more to the school fund from leases in the Sabine River bed.

These leases were originally made by Governor Sterling, Colonel E. O. Thompson and Land Commissioner J. H. Walker. They provided for a 3-8ths royalty to the State from these river bed leases. Later, during Mrs. Ferguson's administration, the price of oil dropped and she, together with Railroad Commissioner Lon A. Smith and Mr. Walker, former Land Commissioner, lowered the royalty from 3-8ths to 1-4th. Additional wells were drilled, and there are now 148 wells from which the State receives royalties.

Judge Terrell made a motion to restore the royalty from 1-4th to 3-8ths. McDonald and I seconded the motion and it passed unanimously. Judge Terrell and I are quite proud of this additional revenue.

## AMERICAN BOY INTRODUCES A NEW FOOTBALL GAME

In the early fall issues of The American Boy, there'll be presented the story of a new game—six-man football—fast as professional football, wide open as basketball, thrilling as hockey!

The game came to life through the need of small schools for some substitute for 11-man football, which was too expensive. Stephen Epler, a Nebraska graduate student in athletics, developed the game of six-man football to meet this need. In six-man football anybody can score, the possibility of injury from mass plays is minimized, and the game is open enough for spectators to follow every exciting development.

The new game is a hit. New schools are taking it up every day. In coming issues The American Boy tells the world about this practical new game. In addition, it presents The American Boy Official Handbook, which can be obtained from the magazine at 20 cents a copy, or 15 cents when bought in bulk.

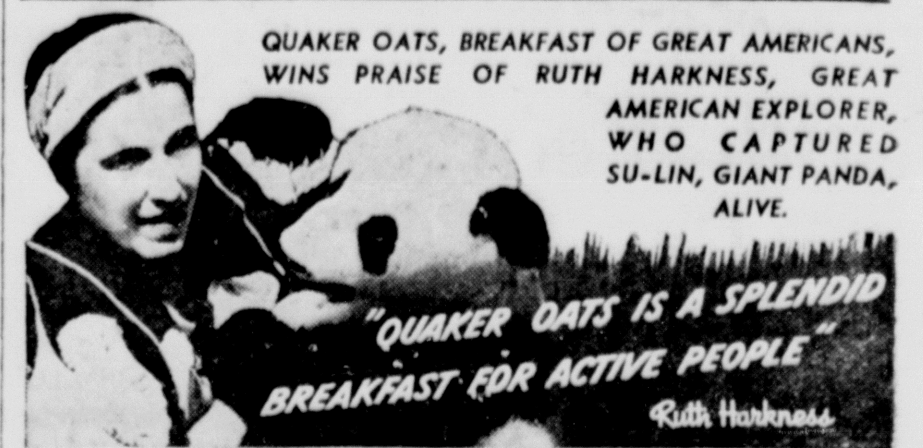

Note: Subscription prices of The American Boy will be raised in the near future. Send your subscription order at once to take advantage of the bargain rates now in effect: one year at \$1.00 or three years at \$2.00. Foreign subscriptions 50c a year extra. Send your name, address and remittance to The American Boy, 7430 Second Blvd., Detroit, Mich. On newsstands the price is 15c a copy.

## Two Courses In Journalism Now Offered By W. T.

More journalism courses than previously have been available are being offered by the College.

They will be taught by Olin E. Hinkle, who comes from Lexington, Ky., where he was managing editor of the Lexington Morning Herald. He received his A. B. degree here in 1925 and the B. J. degree at the University of Missouri in 1926, then worked on newspapers in Blackwell, Okla., Sweetwater, and Pampa before going to Kentucky. He was

editor of The Prairie while a student here.

Journalism courses available this semester are "Newspaper Reporting and Editing," a beginner's course, and "The Special Feature Article." The reporting course will be followed in the second semester by advanced work of the same nature, preparing the student for newspaper work, supervising of high school and college publications, or teaching of the subject. In the second current course, the technique of the newspaper feature story and magazine article will be studied, gathering of material will be supervised, and much writing for publication will be done.

The second course in the spring semester will be "Editorial Writing and Principles," in which the development, style, content, and purpose of the editorial page will be studied. Paragraphing, writing of columns, and formation of public opinion will be examined critically and typical editorial campaigns will be formulated and written.

Six hours of journalism is prerequisite to the second semester courses. Journalism is listed in the college program as English 241 and 252 and as English 341 and 352.

The journalism instructor also will be adviser to student publications and director of the College news service.

## New Cooperative Is Named Cactus Lodge By Mrs. T. V. Reeves

Cactus Lodge has been selected for the name of the new college operated cooperative residence for girls which will be in use for the first time at the opening of this term. The name was suggested by Mrs. T. V. Reeves.

This new girls' home is situated just west of the campus and was formerly known as the Gregory house. According to Mrs. Geraldine Green, dean of women, the new house was made necessary because of the impossibility of accommodating the girls who were making application for places in Randall Hall. The Lodge is to be operated on the same basis that is used at Randall Hall. The Board of Regents authorized the College to purchase the house shortly after the close of the summer session.

Mrs. Jesse Hayes has been selected for director of the cooperative, and has announced that there is already a waiting list of students who wish to stay there.

The structure has been remodeled and furnished, and will house twenty students.

### FIRST CHRISTIAN CHURCH

We are glad to add our voices to the many who are welcoming the new students and preparing to make their stay in Canyon happy and a profitable one. We are designating Sunday, Sept. 19, as a welcome and rally day. A special fellowship dinner will be given at the noon hour to bring the students and the congregation together.

The evening service is being moved to 7:30 to allow the Young People to meet at 8:10. This arrangement allows a social period each Sunday evening. The morning services will continue; Bible School at 9:45 and Morning Worship at 11:00.

We are making every effort to make these services interesting and beneficial and we cordially invite you to share them.

Charles L. Wilson, Minister.

## Dr. Howard Golden Accepts Position on Faculty of W. T.

Dr. J. Howard Golden of Washington, D. C., has arrived in Canyon where he will be a member of the business administration department of West Texas State. Dr. Golden begins his work today with the opening of the fall semester. He is now research advisor in the Federal Farm Credit Administration.

Dr. Golden is a graduate of West Texas State, having received his bachelor degree from the College here in 1930. From Canyon, he went to the University of Missouri where he continued his studies in the fields of business administration and agricultural economics. His doctor's degree was conferred by the Missouri institution in 1935 and he has been employed continuously since that time with the Farm Credit Association.

Statistics of the W. T. business administration department reveal that during the long session, 1936-37, the classes in that division totaled 782 people.

President J. A. Hill has stated that changes which were begun when the board of regents instructed this college to confer the degree of bachelor of business administration will be continued in the following sessions. The four year's work as now given follows the plan pursued by the best universities.

## Margaret Barrett Is New Instructor of Home Economics

Miss Margaret Barrett of Parkville, Mo., where for five years she has taught at Park College, has come to the College as assistant professor of home economics.

Miss Barrett received the A. B. degree from the College of Emporia, Kan., in 1933, and the Masters degree from the University of Kansas in 1930. She majored in home economics and took courses in education to prepare for teaching. The daughter of a Presbyterian missionary, she was born in Siam but was reared in this country. The department of home economics is one of the largest in the college. A practice house is being built to permit seniors who major in home economics to live and study under household conditions.

## Work Completed By 465 Correspondent Students

A total of 465 students who completed correspondence courses offered here in the calendar year ending August 31, was almost half as great as the number of resident students during the regular session.

Enrollment in correspondence work included students of 99 counties in Texas, and six states. These earned credits amounting to 1,324 semester hours.

Correspondence work is offered through the Bureau of Public Service of the College. This bureau also has charge of teacher placement work through a faculty committee which assists the director. The committee reports 179 enrollees placed since January 1.

Effectiveness of the work of the teacher placement committee and the demand for graduates of West Texas State are shown in records on the Class of 1937. Of 101 members of this group, 92 are now employed and whereabouts of several is unknown. Of the 174 members of the August graduating class, only three are unemployed or unreported.

## MRS. L. T. CAMPBELL HAS CLUB MEETING AT HOME

Members of the Lakeside Home Demonstration Club met at the home of Mrs. L. T. Campbell Wednesday, Sept. 1, for a demonstration on the canning of leafy, green, and yellow vegetables by Miss Frances Wilroy.

A lecture was also given by Miss Wilroy on the proper selection of first class vegetables for cooking and canning.

All members of the club were present.

Mrs. Carl Hair visited her mother in Slaton last week.

## BAPTIST STUDENT UNION HOLDS PRE-SCHOOL RETREAT

Members of the Baptist Student Union Council and other members of the Union met in the B. S. U. Room at the First Baptist Church for their annual Pre-School Retreat with a total enrollment of eleven students.

Those who attended studied "Baptist Student Union Methods" by Frank H. Leavell. Miss Marijo Brown, Startford, president of the B. S. U. taught the classes which were held at 9 and 11 a. m. and in the afternoon from 2:30 to 5 o'clock. Those present were privileged to attend the morning services of the present revival meeting at the church with Rev. A. C. Huff, Tulsa, bringing inspirational messages at that time.

Detailed plans were made and aims adopted by the members of the Council during the Retreat.

## MYRTIS WRIGHT-TOM SLACK ANNOUNCES MARRIAGE

Miss Myrtis Wright of Canyon and T. V. Slack, Jr., son of Mr. and Mrs. T. V. Slack, pioneers of Canyon, have recently announced their wedding which took place at 3:30 o'clock in the afternoon, July 18, at Panhandle.

The couple were attended by Mr. and Mrs. R. F. Vernon of Amarillo. Mrs. Slack is the daughter of Mr. and Mrs. J. J. Wright of Canyon. She is a graduate of Canyon High School and has attended West Texas State.

Mr. Slack also was graduated from Canyon High School and is now a senior in West Texas State. He is a two-year letterman on the varsity football squad and is a member of the Buffalo T Club and a former member of the Epsilon Beta.

Mr. and Mrs. Slack are now at home in Canyon where Mr. Slack will complete his senior work at the college.

## FRIDAY CLUB RESUMES FALL MEETINGS FRIDAY

Mrs. Travis Shaw acted as hostess to members of the Friday Afternoon Club when they gathered at her home for the first meeting of the fall season last week.

## NOBODY'S BUSINESS

BY JULIAN CAPERS, JR.

Austin.—This is the open season for estimates of the financial condition of the state of Texas. The estimates of the various "experts" must be considered with some knowledge of how the political wind is blowing, if they are to be appraised with any conception of their accuracy.

State Auditor King, appointee of Governor Allred, has brought out the most pessimistic estimate of all to date. He estimates the general fund will be about \$24,500,000 in the "red" by the end of the current biennium. This estimate, of course, supports the demand which has been the governor's shibboleth since the day he took office—"more taxes." The only exception has been the brief period of a few months in 1936, when he was seeking reelection. Then he said no new or increased taxes would be necessary.

All authorities agree that the school fund, with money in sight to pay a \$22 per capita apportionment, and the largest appropriations in history for rural aid, is in the best shape in history. The highway department, likewise, has a substantial cash balance on hand, and sufficient funds allocated to carry out its extensive commitments for both federally aided and state highway projects for the next two years. The Confederate pension fund, of course, is deeply in the "red" but it is limited by constitutional requirements, and is gradually working itself out.

## General Fund Problem

That leaves the general fund as a source of worry for the legislature. One of the best fiscal experts in Texas, whose past record stands up remarkably in contrast to those of the political estimators who have an ax to grind, has compiled a careful study of the general fund situation, which this column believes to be reliable. At least, it is a dispassionate study of the actual figures, without any political purpose to serve.

This authority estimates the general fund deficit, at the close of this biennium, after paying the \$22,000,000 hike in appropriations which the regular session of the 45th legislature so generously dealt out, will be \$14,000,000.

Two alternatives are suggested by this expert. He points out that the general fund is now paying out approximately \$5,000,000 per biennium on the "bread bonds" issued for relief purposes during the depth of the depression, and that this entire \$20,000,000 bond issue will be retired within five years after the end of the current biennium. If taxes are raised now, he points out, it is extremely unlikely that they will be lowered again when the general fund is relieved of the bond payment burden. Therefore, he suggests letting the deficit "ride" as a brake on the future expenditures.

## State Debt Is Low

It has been frequently pointed out that Texas follows a policy of paying for all capital expenditures out

of its general fund. This policy of financial permanent improvements from current revenues has resulted in a net per capita debt of the state government in Texas of \$3.26 for general governmental purposes, and none for state highway purposes, whereas in Arkansas, the net state per capita debt is \$82.36, while the per capita highway debt totals another \$70.04. In Louisiana the per capita state debt is \$51.40, and the highway debt \$40.52 per capita. Over half the states in the union have a state per capita debt of \$20 or more, while only 15 states have avoided highway debts.

The policy of paying cash for permanent improvements may be a very good one, but in Texas it has given politicians the excuse continuously to increase taxes. Thus, if the state decides to build a hospital, for instance, at a cost of \$2,000,000, the legislature makes the appropriation from the general fund, which becomes over drawn to that extent. Then the politicians raise a hue and cry to "wipe out the deficit" by upping taxes. When it is wiped out, the next legislature, seeing that the state is on a cash basis once more, becomes liberal with appropriations, and another deficit ensues. Then the cry goes up for more taxes, and the vicious circle continues ad infinitum.

## Must End Somewhere

During the three-year period beginning in 1936, Texas taxpayers will have assumed about \$40,000,000 in additional state taxes. They must also pay out about \$75,000,000 in new federal social security taxes during this period, making about \$115,000,000 of new taxes for which they must foot the bill, not counting other increased federal and local levies. There is a limit to what the people can pay. Many believe that limit is rapidly being approached.

## "Organizers" Are Busy

Just before a legislative session is open season for the boys who want to "organize" some group of citizens. Within recent weeks letters have been sent out to two groups, asking for subscriptions, and promising legislative results that are, to put it mildly, extravagant. One such letter was sent to dealers of electric appliances, requesting that each rush \$10 to a self-appointed president of the "Independent Alliance Dealers' Association" at Tyler. About all the organizer promises is "a flood of letters to members of the legislature" urging a law to prohibit utility companies from selling appliances. Such a bill was decisively killed by the present legislature at the last session, and there is no encouraging prospect that such a bill would pass, even if it should be submitted, which it probably won't.

Another organizer has sent letters to merchants and others operating trucks, seeking donations of \$250 each to support a movement to raise the load limit on trucks. Similar legislation was also killed in the regular session, as it has been in numerous previous sessions.

Most of the effective lobbying in Austin is done by men whose services are sought out—and very little of it by the boys who send out circular letters for donations.

## SEWING ROOM EXHIBIT AT TRI-STATE FAIR

Women at the sewing room under the direction of Mrs. Roy Campbell have been working on an exhibit which will be placed at the Tri-State Fair with exhibits from all other sewing rooms in this district.

Early this week Mrs. Campbell discovered that she needed a man to model the work clothing, and of course none could be found; so she cut one 6 feet tall from beaver board that serves as a perfect mannequin, and displays the perfection of fit and styling in the men's latest work garments as made by the women in the sewing room.

Other items of clothing and hand work will be displayed by the women.

On Sept. 24th there will be an exhibit placed in the Amarillo City Auditorium of all sewing room work of the various ones over the district.

Louis Upchurch and his sister, Miss Louise, left Tuesday for Madison, Wis., where they will do work in the University this winter. Louis has a Fellowship in the institution. Lee Johnson left Tuesday for Columbia, Mo., where he will continue his work in the University of Missouri.

Misses Hilda Miller, Harriett Dickinson and Edwin Dutton are teaching in the Littlefield schools this year.

## PURGING THE PENSION ROLLS

It was pointed out by a pension bureau official the other day that one Texan worth a quarter of a million dollars refused to contribute to the support of his indigent father-in-law, wherefore it developed upon the state of Texas to take up the burden—at the expense of the taxpayers.

It is impossible to understand a guy like that, but unfortunately, there are a good many of them in the world—too many.

Acting director W. A. Little of the old age assistance administration insists that the pension roll can be reduced from the present 114,000 to 85,000 by the enactment of two simple laws. One would require the recipient to give the state a lien on his property; the other would compel able children to support their dependent parents. Lopping almost 30,000 off the list would mean more money for those who really need assistance, those who have no one to turn to in their dire old age. It would also mean that the taxpayer would be relieved of the burden of caring for those who should be cared for by relatives.

Texas has more aged on its rolls than any other state in proportion to population. It has been most liberal in its rules and regulations. The legislature owes it to the aged men and women who are in genuine need to overhaul the existing statute so that they will get all the aid they need, while those who are getting a free ride at the expense of the taxpayers should be turned over to able relatives for support.—Abilene Reporter-News.

Boggy—Do you know satisfaction claim the automobile has actually cut down the deaths from old age in this country?

Wogy—How's that? Prevents overexertion, I suppose?

Boogy—No, not that so much, but fewer people escape to reach old age.

Cactus Cal

Wal folks here we are again, Mariah, Israel, and me after a good summer vacation. The first person I saw was Marie O'Donald goin around gripin everybody's hands. Shes kinda like Miriah and me and dont git aroun much in th summer. I don't think I've ever saw so many new faces at th beginning of the schule year befor. I even saw sum seniors from last spring up har trying to get back in with seventh graders, but seems they wouldn't have em.

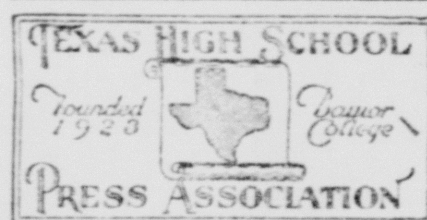

I said to Mariah that yu ole kids are gonna get showed up by them kids from rural districts schules and I sez that thers some goodlooking kids too cause sum of th ole boys seemed to be standing sady by while their girls tried to flirt with them new boys and them new boys is bound to be some handsome to git em to let the other boys go.

My heart jus nearly bursted with pride to see them good ole C. H. S. fame fighters at football practice, kinda remembered me of the good ole days an say that was shore some picnic them pep girls gave them boys th tother nite. Kinda shows they appreciates yu.

I shore looks good to see Miss Goodrich back in her ole line of duty. Yu knowed her an me were ole timers at th schule didn't yu. I've been trying to get acquainted with them new teachers an I believe thar gonna be good.

Wal I'm jus so full of news it'll take months to catch up so I'll jus come back ever week with sum good news.

So long until next week.

## WELCOME TO C. H. S. ALL NEW STUDENTS

The faculty and school board have welcomed the new students in assembly programs, but we, the student body, take this means of welcoming you into our school. We hope that you get acquainted early and enjoy being in our midst this school year.

We want you to mingle with us and be members of the various clubs and organizations such as the Home Economics Club, Boys' Pep Squad, (which this year is opening to new membership), Football Squad, and boys' and girls' basketball teams. We also want you to take part in class meetings and socials, and take advantage of every available opportunity you find here, such as our well equipped library, our home economics, manual training, agriculture, and vocations courses.

We need your enthusiasm, your friendship, your individual capabilities, and the various ideas which you bring from other schools. You have a vital place in our school, for you now belong to Canyon High School and Canyon High belongs to you.

## LEARN THE SCHOOL SONG

For the benefit of the new students, we print the official school song of Canyon High School so that they may cut it out and learn it before football season begins.

**Canyon High School Song**  
"Our hearts are filled with gladness

And pride in Canyon High;  
We'll play the game the live long day;

Dishonor ne'er draws nigh.  
We'll spend our lives in serving,

## DR. COOK OPENS SCHOOL TERM IN ASSEMBLY

The 1937-38 school term of the Canyon High School was opened Sept. 6, when students and patrons met in an assembly with Dr. Harris M. Cook, vice-president of the school board, as principal speaker.

The band, under the direction of the new band instructor, Marshall Riemenschneider, played several selections. Mr. Riemenschneider later gave three piano selections. The Rev. Charles Wilson of the First Christian Church gave the invocation.

Dr. Cook concluded his talk on growth with the wish that every student should "grow and grow, yet never get grown."

Mr. Carruth introduced board members, T. V. Slack, W. H. Holman, J. C. McClendon, and Clene Dugan, and Judge Burney Slack.

After groups of new students from Palo Duro, Wilson, Garrison, Jewell, Stone, Zita, Ralph Lakeside and Blanca were introduced, visitors were dismissed and Mr. Pope discussed rules of the school.

Parents and patrons attending the assembly were Mr. Guy Harp, Mrs. Earl Burtz, Mrs. T. W. Ziegler, Mrs. Glen Boling, Mrs. E. H. Albers, and Phyllis Albers, Mrs. W. T. Davis, Mrs. E. N. Zachry, Mrs. J. A. Guthrie, Mrs. Frank Stockhaus, Mrs. Lena Tuck, Mrs. Ed Money, Judge and Mrs. Burney Slack, Mrs. Silas Hart, Mrs. W. P. Sharman, Mr. and Mrs. E. L. Barnett, Mr. and Mrs. J. C. McClendon, Mr. and Mrs. Clem Dugan, Mr. and Mrs. E. H. Guy, Mr. and Mrs. T. V. Slack, Mr. and Mrs. Fred Schuette, Mr. and Mrs. L. H. Holman, Mr. and Mrs. Clyde Warwick, and Mr. and Mrs. Arthur Jennings.

Ex-students present were Mary Collins, Mildred Shuman, Beulah Brasuel, Helen Bowman, Ruby Foster, Marielle Oldham, Mary Jo Arent, Mrs. Blackie Ross, R. E. Prichard, Bill Cone, and Jack Oldham.

## P.T.A. Holds First Meeting of Term

The first P. T. A. meeting of the 1937-38 school year will be held in the high school auditorium Sept. 23 to prepare the program for this year. Mrs. Clyde Warwick, president of the P. T. A., said Monday, "The plans for this year's work are rather indefinite but we will probably enlarge on the subject of last year, Character Growth, and carry the work more in detail. The committees are organizing this week and after our first program we will begin work in earnest. I would like to take this opportunity to urge full attendance."

The new officers are Mrs. Clyde Warwick, president; Mrs. John B. Pope, first vice president; Mrs. Ed Phillips second vice president; Mrs. L. D. Winn, third vice president; Mrs. Carl Scott, fourth vice president; Mrs. Bradley Burrus, fifth vice president; Mrs. Warren Johnson, sixth vice president; Mrs. Bill Davis, secretary; Mrs. Dewey Foster, treasurer; Mrs. Dan Sanders, Study Club chairman; Mrs. H. A. Brown, music chairman.

## F. F. A. Holds Meeting Friday

"Project Discussion" and F. F. A. Work were the main topics discussed by the Canyon Chapter of the F. F. A. Club at their meeting in the Vocational Agriculture room last Friday. Explanation of Vocational Agriculture and F. F. A. were discussed by Milton Morris, the instructor. J. D. Breitling, the president, told of trips taken last year. They entered shop work and poultry contests. As a project of the class they visited a project at Hereford. Grain classification, dairy products, and shop work were the contests entered at Lubbock.

Last year the boys had the "chicken fever"; however it is a different fever this year; they are feeding lambs and sheep.

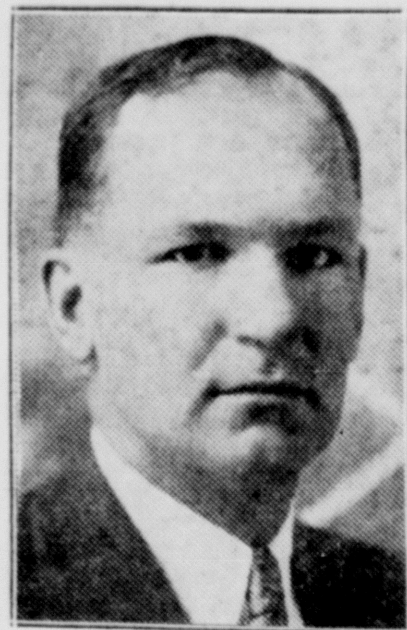

Thirteen boys received lambs from Glenn Dowling. Among the boys are: Frank Hollabaugh of Jewell; Glynn Persons, Ralph; Lewis Tuck, Wilson; Clifton Wesley, Stone; Carliss Currie, Wilson; Charles Gerald, Eston Breitling; Billy Davis, Mabrey Vandergriff; Dwayne Ford, Shaw Guy, Donnell Arent, all of Canyon, and Hugh Dalton, Lakeside.

The boys plan to have a lamb show here some time in November. Other projects will be taken later. Glenn Moss is in New Mexico now planting wheat for his project.

The class covered lamb feeding and making out notes as their work last week. They also decided to have a booth at the Tri-State Fair.

And here's our pledge we'll give our best,  
For Canyon High School now."

## C. H. S. PRINCIPAL

Principal John B. Pope has accepted a position as State Coordinator of Distributional Education in Austin. He will spend part of his time traveling out of Austin training distributive vocational workers.

Mr. Pope who has been Principal of Canyon High for four years, will leave for Austin October the first to begin his new work.

Mrs. Pope and the children left last Tuesday for Austin where they will make their home. John B. Jr., who was graduated from Canyon High School last year, will attend the University; Bobby will attend the University Junior High School, and Jimmie will stay here to finish high school. Lucy will attend one of the elementary schools.

Mr. Carruth will run both offices until some definite plans are made.

## Campbell Is Head of Band Parents

Mrs. Ray Campbell was chosen president of the Band Parents' Association of Canyon High School.

## OBJECTIVES, '37-38

As we enter into the new school year, questions naturally arise in the minds of parents, teachers, and students as to what we are trying to do. The Canyon Public Schools will have as their major objectives for the ensuing school year the moral, intellectual, and physical development of all of the children that come under their influence. Too often, when thinking of the school, one is prone to think of a place where intellectual improvements are being promoted. While we should not minimize this part of an education, we should hold equally important, if not more so, the moral and spiritual training of the child. Character education is without doubt the greatest mission of the public schools.

If future citizenship is based upon broad spiritual values the problems of government and society will be taken care of.

While thinking of the mental and moral aspects of an education, we should also consider the physical development and training of the growing individual.

Many times an ambitious mind is handicapped by physical defects, that if not detected and remedied at the proper time, will seriously handicap the educational growth of the individual. Hence, it shall be the objective of the public school faculty to train boys and girls in such a way that they will have an alert mind, worthwhile character, and a strong body.

IRBY CARRUTH,  
Superintendent.

## F. F. A. PRESIDENT

J. D. Breitling, who is a junior in high school is active in F. F. A. Club work. He was in charge of the poultry project last spring, high point man in Texas Tech's dairy product contest, first in milk judging, and second in butter judging. He completed many projects last year and plans several projects for the coming year. Among the projects completed last year were: one hundred baby chicks for frier and broiler production, and one pig for pork production.

He was a letterman in basketball and attended the district and regional meetings last year.

## Election of Term Officers Is Held

Classes of the Canyon High School elected sponsors and officers for the school term when they met September 8.

The Seniors met with officers elected last spring, Gerald Brown, sponsor; Sarah Thompson, president; Clarence Zachry, vice president; and Marie O'Donald, secretary. They selected party committees for this year.

The juniors elected Milton Morris, sponsor; Carl Cone, president; J. D. Breitling, vice president; and Hazel Sanders, secretary.

The sophomores elected Miss Nellie Freeman, sponsor; Hudson Prichard, president; Billy Joe Hunter, vice president; and Alvis Ford, secretary.

The freshmen elected Miss Grace Clark, sponsor; Bettie Guthrie, president; Dayton Morris, vice president; and Katy Jean Black, secretary.

The sub-freshmen elected Miss Belva Cain, sponsor; Clarence Eugene Thompson, president; James Thomas Harp, vice president; Joe Martinez, secretary; and Anna Lee Newlin, reporter.

## Teachers and Board Members Play Kid

The board members and teachers turned to their childhood days when they journeyed to Elwood Park in Amarillo Thursday evening at the invitation of the board in order to become better acquainted.

After all, including Emil Hutto, had all they could eat, the group, led by Mr. Riemenschneider sang such songs as, "There's a Long, Long Trail," "Home on the Range," and "She'll Be Comin' 'Round the Mountain."

Miss Annie Ruth Eastus was proclaimed the winner of the barefoot race, winning over Miss Elva Fronabarger, Miss Virginia Jarrett, and Mrs. John M. Davis. After her victory she had some difficulty in finding her shoes and stockings, which were later innocently found by Mr. Stroud.

Coffee-pot was the main game of the evening. When Renna Beth Bellah was "it" the word chosen was court. Mr. Gerald Brown was asked where he usually coffee-potted and he hesitatingly said, "in the park." Now students, you know where he spends his nights out.

Dr. Harris M. Cook entertained the group by giving the facts of a murder mystery and asking the group to solve the mystery.

During this time there was a water fight, with Mrs. Milton Sanders and Mrs. Guy Tabor trying to drown Mr. W. H. Stroud.

## Ex-Student Relates Changes and Progress In High School Work

### C. of C. Donates to Drum Corps

A donation of fifty dollars was given the Drum Corps at the last meeting of the Chamber of Commerce.

This money was given them to repair the old drums, buy straps for the flag bearers, and buy more drums so as to increase the number of girls in the Drum Corps for the coming year. This is the second donation the Chamber of Commerce has given the Drum Corps; the first being ninety dollars to buy drums.

The Drum Corps wishes to express their appreciation to the Chamber of Commerce for their help.

### Pep Squad Gives Social for Boys

Punch seemed to be the main item at the Football-Pep Squad social given on Bourn's Creek Friday, September 10.

Willow trees and fishing poles were used for sticks for weiner roasting over the big fire provided by Coach Hutto and Gerald Brown. The rest of the menu included buns, pickles, cookies, and mustard.

The group gathered around the fire where Mr. Brown called upon Fairy Hill, co-captain of the Eagles, to introduce new members of the squad, who were J. R. Glenn from McLean, Kenneth Erwin, Ernest Garrison, and Andrew Hamel from Stone, and Guy Tomlinson from the Training School. The pep girls gave a few yells to show their appreciation to the squad.

Food was furnished by pep squad girls and cars were provided by Mr. Brown, Mr. Hutto, Mrs. John B. Pope, Fairy Hill, Clarence Zachry, Mary Bourn, Helen Hurst, and Dorothy Warwick.

### Wed. is Canyon's Day at Fair

Next Wednesday will be Canyon's day at the Tri-State Fair. The Canyon Public Schools will be dismissed at noon on the twenty-second in order that the pupils may attend the fair.

The band will play over the radio from the fair grounds at some time during the day. There is a prize of \$100 offered to the band which gets the largest number of votes; therefore Mr. Riemenschneider urges everyone who attends the Fair to vote for the Canyon Band. The band is selling tickets in Canyon next week to all main attractions at the fair. They would like for all Canyon people planning to go to the Fair to buy tickets from them.

The Drum Corps is planning to attend the Fair also.

## FACULTY MEMBERS ENJOY VACATIONS

The faculty of Canyon High School spent the summer in various ways, and, although this reporter uncovered the sites of their vacations, he cannot tell you the exact way in which they were spent.

Several of the teachers went to Texas University. These included Miss Annie Ruth Eastus, Mr. John B. Pope, Mr. I. B. Carruth, and Mr. Gerald Brown who also spent three weeks in Mexico City.

Miss Grace Clark, Mrs. T. W. Collins, and Miss Elva Fronabarger spent the summer here.

Miss Lois Goodrich was director of Life Girls' Camp in Georgetown, Connecticut. She also received her M. A. degree at Columbia University last winter.

Mrs. John Davis went to California to school.

Mrs. Ralph Harter, Mrs. Guy Tabor, Mrs. Andy Walsh and Emil Hutto attended West Texas State Teachers College. Mrs. Walsh went to the Texas and Pan American Exposition in Dallas, and to Creede, Colorado.

Marshall Riemenschneider went to band school and Red River, New Mexico.

Miss Virginia King was bookkeeper for the McClellan Chevrolet Co. in Spearman.

Miss Nellie Freeman stayed at her home part of the summer, and went to Fort Collins, Colorado.

Milton Sanders worked in the wheat harvest in Oklahoma, and went fishing at Eagle Nest Lake.

Mrs. Carl Scott visited in Lubbock and Carlsbad.

Miss Gladys McClannahan went to school in Weatherford, Oklahoma, and Milton Morris went to Texas Tech in Lubbock.

Miss Belva Cain visited the Exposition in Dallas.

Gordon Beck worked in an elevator in Adrian; Mrs. Ola Beeson visited in Longmont, Colorado; Mrs. Stella Murrell visited on a ranch

By Mary Collins

Just another pleasant dream has ended—My high school days!

Those high school days of mine in Canyon seem so clear just as if they were almost real—to think so much can happen in a dream; in reality it probably would have taken four years. I recall some important teachers in that dream. Each played a different part, but in his or her own way made an imprint on my dream. There was a Miss Mattie Jordan, a quiet, sweet, and pleasant sort of person; then there was Miss Fannie Sue Brasuel, whose charm brightened things; a Miss Jewel Foster seemed almost real, she was such a "fair shooter"; yes, and there was one R. G. Stephenson, who went always about his own business; of course I could not lose memory of Miss Pauline Crittenden; and there was one other who faded with the dream, a rather dramatic type—Mr. H. G. Moore.

### Dream Ends

It gave me a queer feeling when I awoke and found that with my dream went my high school days. To think that all the fun stopped for me but went on for others because part of my dream was arranged around reality and lives on after the dream. Canyon High School was still there but a bit different, and changed. Some of the same people were still there. Why yes, I'm sure I remember these people plainly in my dream: Supt. I. B. Carruth, Prin. John B. Pope, Coach Emil Hutto, Assistant Coach and Social Science teacher, Gerald Brown, mathematics teacher, Miss Grace Clark, teacher of vocational agriculture, Milton Morris, mechanical arts teacher, Milton Sanders, and Miss Lois Goodrich, who teaches English and Journalism in Canyon High. She had not appeared in the last part of my dream, though it seemed that I thought of her often.

### Visits School

When I paid my real visit to this school I found new teachers to take the place of those in my dream, who did not appear in reality. Miss Nellie Freeman, who taught last year in Dumas is now the home economics instructor; Miss Virginia King who teaches typing and Spanish, came to Canyon from Perryton. Mrs. Andy Walsh of Canyon, is substituting in the high school until a recent vacancy is filled. Marshall Riemenschneider, former band master of Tulsa (seems I remember something about Tulsa in my dream—football complications or something) is the new band instructor. Miss Belva Cain, who taught in the grade school last year, is teaching in the high school this year. Lewis Shirley, the newest member of the faculty, also taught the preceding year in Tulsa.

But what about this Mr. Pope I remembered so well? He is leaving for Austin, I am informed. And is the principal's job to be turned over to the Superintendent? Complications arise even after dreams!

### Finds More Changes

As I explore the school more carefully, I find that it is more changed than I had thought at first. It has some decided new advantages. There are seven periods a day rather than the original six; classes in the mornings are one hour long, while the afternoon classes are only forty-five minutes. The sixth period in the day is a new "wrinkle" on me, they call it activity period. Just like a junk room it clothes all; that's the period for assembly, which is twice a week, that's also the period for class meetings, club meetings, and for group study on guidance.

Classes I thought I met at 8:30 have even been changed; bookkeeping class starts at nine and is now a two-hour subject. Two new subjects have been added to the schedule this year; vocations which was offered year before last is being taught by Supt. Carruth, and Economics-Sociology, is under the instruction of Gerald Brown—I always thought he'd inveigle the school heads into letting him teach something like that. Everything has something different about it. The P. T. A. has a new leader. Mrs. Clyde Warwick was elected last year as president of this year's P. T. A. And there are more than a hundred new faces in the halls this year.

### Bright Future

I thought my pleasant dream ended and I found a changed situation—I would take nothing for its memory; yet I would love to go back to high school again this year to enjoy the new features and the many new teachers and students.

near Clayton, New Mexico; Miss Virginia Jarrett went to Kansas City, and Mrs. Isabel Cousins worked here and visited in Oklahoma.

Hollywood, it is now revealed, showed little interest in the recent comet. Hollywood wanted it for a world premiere.

## J. B. Speer is Newly Appointed Deputy State Superintendent

J. B. Speer, who was recently appointed deputy state superintendent of public instruction, has his headquarters in the Administration Building here. Mr. Speer was graduated here in 1929, and has taught education here during the last two summers.

As deputy state superintendent, he will have jurisdiction over the schools in 23 north Panhandle counties. His duties will include visits to the schools in this district for the purpose of classification, accrediting, and standardization. He will also be responsible for the distribution of rural aid funds.

While in school here Mr. Speer was a member of the scholarship society and Cousins Literary Society. He served as president of the Ex-Student Association in 1935 when the College celebrated its twenty-fifth anniversary. He is now one of the directors of this organization and chairman of the membership committee.

He was a leader in the movement which resulted in the formation of the Federated Ex-Students of all the Texas teachers colleges. He is also a member of the American Legion.

Mr. Speer served as a principal and superintendent in schools of the north Panhandle for nine years. He received his Masters Degree from Texas Tech and has continued his study at the University of Texas.

## For Better Yields and Better Quality

### Use a McCormick-Deering Deep-Furrow Drill

The McCormick-Deering Deep-Furrow Drill with Press-Wheel Attachment.

MCCORMICK-DEERING Deep-Furrow Drills solve the problem of planting winter wheat where rainfall is limited. The deep-furrow openers deposit the seed in the moist earth below the dry surface soil where it can germinate more quickly and strongly. Repeated tests have proved that this method produces maximum crop yields.

The McCormick-Deering deep-furrow opener is a large diameter single disk set at an angle to the line of draft and with ample undercut to make deep furrows with ridges between. It can also be attached easily to any McCormick-Deering Drill of six, seven, or eight-inch spacing that has an even number of openers.

We shall be glad to show you the McCormick-Deering Deep-Furrow Drill and also the gang press wheel attachment which is available for it.

# Why National Advertisers Use The Canyon News

People are interested in other people, especially in people they know. That's why hundreds of families in this community subscribe to this paper year after year.

On these pages they find the names of fellow townspeople, often their own. So besides the ordinary interest of nation-wide news, this newspaper offers the even greater reader-interest of local community doings.

National advertisers believe that by using these columns they are reaching the greatest number of substantial families in this community, reaching them at home and in an effective and friendly manner.

But this newspaper performs another important service. By displaying the advertising of local merchants side-by-side with the products of national advertisers these national products become identified with the local market, with local merchants.

In this way, on these pages is forged the important last link between the manufacturer and his local community dealer and their customers. That's why, for local buyer acceptance, for local dealer tie-up, local community newspapers are best.

## Olin Hinkle Tells of Experiences in State of Kentucky

Olin E. Hinkle was an interesting speaker at the Rotary luncheon Tuesday as he described his experiences while engaged in newspaper work at Lexington, Kentucky, during the past year. He expressed great delight in returning to the Panhandle where he has spent most of his life.

"Dark and bloody ground," a term applied to Kentucky is as much a misnomer as the "dust bowl" applied to the Panhandle. Most people believe that the term originated as a result of feuds among the mountaineers. As a matter of record the term originated with Daniel Boone. The state was heavily wooded and full of game when Boone entered it. The Indians held it as a game preserve, and the term used because of the slaughter of this game.

The first newspaper was started 150 years ago.

Blue grass centers around Lexington, where Mr. Hinkle was editor of the morning newspaper. An area only about the size of two Panhandle counties raises blue grass. The state as a whole is rather poor, mountainous and badly washed.

The state is rich in historical connections, and the people proud of their ancestry.

Fine liquor, corn, tobacco, sheep raising, coal and horses are the leading industries. Mr. Hinkle described his first experience with the tobacco industry, which produces as high as \$1,000 per acre.

The feuds largely originated in Wales and were transported to this country, rather than originating over local political questions.

Mr. Hinkle discussed horse breeding and racing. The real horseman does not gamble; he is opposed to so many race tracks and so many races. Mr. Hinkle described the great breeding farms that are centered around Lexington and what they mean to that section.

Mr. Hinkle handled much of the

news regarding the big flood of last year when Louisville was four-fifths under water. The Associated Press in Louisville was put out of commission, and Mr. Hinkle was assigned to accompany the Governor as he visited the flooded districts. The state penitentiary was flooded and when Mr. Hinkle accompanied the Governor to the plant the 2900 prisoners had wrecked the plant and had taken refuge on top of the buildings. The inmates were moved out in boats following a speech by the governor, which Mr. Hinkle pronounced as a classic.

Visitors present were: J. M. Oaks of Amarillo; Dr. J. Howard Golden, Rev. J. R. Hicks and George M. Stokes of Canyon.

## Bufs Open

(Continued from page one)

Coach Baggett is experiencing some difficulty in picking his greatest quartet for the backfield. The question mark is hottest at the position vacated by blocking back Ezell Champion who was lost by graduation.

Blake Lyde, letterman from Childress, and Carl Matney, Vernon, up from the freshman ranks, are dividing time at the blocking with Lyde on the inside track. Lwood Dow, senior letterman of Littlefield, has the edge on Conway "Crash" Butler of Turkey for first shot at fullback. P. A. Thomas, Foster Watkins and Floyd Murry, all lettermen, are supplying a spirited battle for the nod at quarterback.

Murry played regularly two seasons ago, and Watkins had the jump on Thomas last season because of his accurate passing. Murry has returned to school this year in an attempt to regain his 1935 form. Canyon's Tom Slack is a sure bet for the running back post over Joe Hayes of Allison.

Mr. and Mrs. Ralph Cabe and daughter left Saturday for Albuquerque where they will visit in the home of his parents there.

James Cole is serving on the federal grand jury in Amarillo this week.

## Tri-State Fair Opens Next Monday For Full Week

Amarillo, Monday, September 20, marks the beginning of a week's holiday for the Panhandle of Texas, eastern New Mexico and western Oklahoma.

The crystal celebration of the Tri-State Fair begins on that date in Amarillo and will continue thru Saturday, September 25.

More major attractions than ever before presented at one time in this area will be at the exposition. In front of the enclosed grandstand on an elaborate stage, with special scenery and lighting effects, "Passing Parade," a musical comedy and revue will be presented every night.

World famous, the Hardin-Simmons University Cowboy Band will be on the exposition grounds thru-out the week, giving concerts in front of the grandstand afternoon and night.

Beutler Brothers rodeo with world's champion contestants and performers will be staged every afternoon.

Al G. Barnes and Sells Floto combined circus will give performances every afternoon and night.

Crowley's United Shows will be on the midway.

Exhibits will be the best in years with approximately \$25,000 in cash premiums.

Bands by the scores will be in Amarillo for the exposition.

Delegations are planning to go to the fair by special train.

Governor James V. Allred and Governor Clyde Tingley will be in Amarillo during the exposition.

Among visiting delegations with bands will be Shamrock, Spearman, Borger, Phillips, Stinnett, McLean, Tucumcari, Portales, Perryton, Clarendon, Happy, Tulsa, White Deer, Plainview, Groom, Hereford, Canyon, Panhandle, Wheeler, Daltart and Memphis.

Leo Dufflet left Monday for Austin where he will enter the University of Texas.

## Palo Duro Peeps

Mr. and Mrs. Melvin Looney and Mrs. John Goble who have been visiting in the Pearl Harding home left Thursday for their home in Menard.

Mr. and Mrs. Gustav Leseberg and Wilma Schuette, Mr. and Mrs. Raymond Tucek and son, and Mr. and Mrs. G. H. Leseberg and daughter spent Sunday with Mr. and Mrs. C. W. Bauer and family.

Mrs. Walter Boehning was very sick with the flu last week.

Mr. and Mrs. Less Sharver of Fort Worth and Mr. and Mrs. A. A. Harding of El Paso are visiting in the Pearl Harding home.

Mr. and Mrs. Herman Kuhlman attended the funeral of Mr. and Mrs. Bill Blues' daughter at Texline, Friday.

Mr. and Mrs. Clem Dugan and family, and Mr. and Mrs. E. P. Harding and family visited in the R. D. Finley home Saturday night. Mrs. Raymond Boehning spent last week with Mrs. Walter Boehning.

Misses Clara and Dora Miller, Richardine, Claire and Nancy Windsor, of Amarillo spent Sunday in the Henry Miller home.

## CCC Camp Remains At Palo Duro During the Coming Period

Texas will lose several CCC camps starting the first of October, according to information from Washington. Camps are being reduced owing to the small number of enrollees, and the fact that projects are being completed.

The camp will continue at Palo Duro State Park. The National Park Service has predicted that work on this project will continue for several years.

Dr. and Mrs. C. A. Pierle and Miss Eleanor Pierle of Monahans were Sunday guests in the home of Dr. and Mrs. G. W. Heard of Hereford. Miss Eleanor is working as librarian in the Monahans school this year. She formerly taught in Hereford.

## Apply For Dams

(Continued from page one)

Sunday when Carl Hinton of Amarillo sent out the following letter which should be followed carefully by those making application. Those who have filed application should withdraw them and follow the form as outlined below.

The letter, sent by Mr. Hinton, follows:

In accordance with the announcement at the conference of county judges with representatives of the Farm Security Administration and the Works Progress Administration following our general meeting in Amarillo on the 8th instant; we are attaching a questionnaire form for your guidance in submitting to your Works Project Administration district office the preliminary proposal on each dam site. You are requested to submit a county map with each of your proposals with the location of the site conspicuously marked on the map.

You will understand, of course, this questionnaire is to direct your attention to basic preliminary information desired and is not intended as a suggestion that you incur any delay or expense in acquiring such information as requested on this form that is not now available to you. Each proposal should indicate the priority ranking of its importance, whether No. 1, 2, etc.

Information filed with your designation of the proposed sites for dams at this time is preliminary and is for the purpose of providing the Coordinating Committee and Federal authorities with an inventory of the program as proposed by the various member counties of the Panhandle Water Conservation Authority.

Additional information will be required before the official proposal Form 301 can be prepared. However, in order to expedite the submission of the program as a whole in this territory, designations by the counties should not be delayed for accumulation of detailed information and you are urged to file information requested in this letter at the earliest possible date.

It is not necessary for you to go to any expense in preparing these questionnaires.

The questionnaire:

SUBJECT: Information relating to Proposed dam and reservoir sites.

COUNTY

PRIORITY NO.

1. Name of stream

a. Is stream flowing at proposed site

2. Describe exact location in Block and Section

4. Length of the proposed dam

5. Height of proposed dam

6. Area in acres to be flooded

7. Estimate in acres or square miles drainage area

8. Furnish pencil map showing ownership at dam site and in reservoir basin.

9. For what use is proposed dam intended (irrigation, flood control, recreation or stock water)

10. Do you have information relating to rainfall, run off or flood discharge

11. By whom was information compiled

12. State any other facts or history which you may deem important.

Recent changes in regulations governing eligibility for selection into the CCC have been received from the Department of Labor by Adam R. Johnson, director, Texas Relief Commission.

A youth may now be selected who has an honorable discharge and has only been out six months, providing other rules are met, while in the past he would have to wait a year. This will enable hundreds of boys to enroll in October, who otherwise could not have been accepted until January.

The quota for Districts 16 and 17 has been increased to 800.

The educational and recreational programs for the coming months far surpass any before available. Everything from the three R's to the higher courses will be taught, as well as many vocational subjects. Shops to teach wood working are in each camp, while experience can be had in masonry and rock work, bridge and fence construction, truck and tractor operation and maintenance, landscaping and soil conservation, are only a few of the worth while subjects.

The educational program is not mandatory but is available to all who desire to take advantage of the facilities and opportunities to better equip themselves for private employment.

All who desire to apply are urged to do so at once. Further information may be received from Mrs. L. A. Donnell at the Relief Office, Canyon.

W. H. Upchurch, Nash Thompson and Miss Frances Wilroy returned Saturday from A. & M. College where they attended a conference of county agents, assistants and home demonstration agents.
